ABOUT ME

I am a Master's degree student in Software Engineering at the University of Salerno, with a strong passion for software development and artificial intelligence. I am motivated to grow in a fast-evolving field and contribute to building innovative and impactful technologies.

EDUCATION AND TRAINING

Master's Degree in Computer Science 10/2024 - Present
University of Salerno
AVG: 29.7 | CFU: 80/120

Bachelor's Degree in Computer Science 09/2021 - 10/2024
University of Salerno
Final grade: **110/110 with honors**
Thesis: Emotion Prompts in Large Language Models for Software Development.
Supervisor: Fabio Palomba.

High School Diploma in Computer Science 09/2016 - 07/2021
I.T.I.S. "Ettore Majorana", Somma Vesuviana
Final grade: 99/100

WORK EXPERIENCE

Internship — Full-Stack & AI Workflow Developer 03/2026 - Present
Fourclicks Srl - Ottaviano, NA, Italy
Contributed to corporate web and mobile projects, working on Angular frontend development with Spring Boot backend integration. Developed a cross-platform Ionic app for iOS and Android with 3D and AR visualization using Google Viewer and Apple Quick Look. Designed n8n workflows using OpenAI APIs to generate images from production designs and support the ideation process for new prints.

TECHNICAL SKILLS

Advanced	Intermediate	Basic-Intermediate
• Java • TypeScript • JavaScript • React • HTML/CSS • JUnit 5 • Agile / Scrum • SQL • PostgreSQL • Docker • n8n • Requirements Analysis • Software Architecture	• Python • Dart • Angular • Spring Boot • Node.js • Flutter • Ionic • GitHub Actions • Hugging Face • OpenAI APIs • MLOps	• C / C++ • Snyk • GitGuardian • Mockito • MockMvc • JaCoCo • PiTest • JMH • JML / OpenJML • SonarQube • NLP

SOFT AND COMMUNICATION SKILLS

I am a curious and proactive problem solver, used to working in Agile teams on university and personal projects. These experiences helped me develop team leadership, time management and resilience under deadlines. I value clear, structured communication: I actively listen to others, contribute to technical discussions, and can summarize complex topics in a concise and accessible way, both in Italian and in English.

PROJECTS

Toy3 Compiler — Full-stack Developer

12/2024 - 02/2025

- Designed and implemented a compiler for the Toy3 language in Java.
- Developed a lexer with JFlex, a bottom-up parser with JavaCup, and used AST and the Visitor Pattern for scoping and type checking; automatic C code generation.

Emotion Prompts on LLM — Research Thesis

08/2024 - 10/2024

- Researched the effect of emotion prompts on ChatGPT-4 compared with human answers from Stack Overflow, evaluated with NLP metrics (BLEU, ROUGE, BERTScore) and sentiment analysis.
- Result: emotion prompts made responses more similar to human ones in 84% of cases.

SINTONIA — Co-Project Manager

10/2025 - 12/2025

- Dynamic triage system for public mental health, developed in a 13-person team where I served as Co-Project Manager using Agile/Scrum methodology.
- Stack: React, TypeScript, NestJS, PostgreSQL, Docker.

VaporantSD — E-commerce — Full-stack Developer

11/2025 - 01/2026

- Java-based e-commerce application (catalog, cart, orders, user/admin roles) developed as a two-phase university project in Software Engineering and Software Dependability.
- Performed a dependability-focused hardening campaign: formal verification with JML/OpenJML, security fixes with SonarQube and Snyk, multi-layer testing (JUnit 5, Mockito, MockMvc), mutation testing with PiTest, and a DevSecOps CI/CD pipeline on GitHub Actions with Docker containerization.
- Stack: Java, JML, JUnit 5, Docker, SonarQube, GitHub Actions, PiTest

Restart — App for social reintegration — Team member

09/2023 - 12/2023

- Designed and developed an app to support job reintegration, with basic integration of an AI module for personalized suggestions.
- Worked in a team following Scrum methodology, focusing on requirements specification and software architecture.

GoEmotion Deberta — MLOps Experimentation

05/2025 - 05/2025

- Experiments from training to deployment and monitoring to understand a complete MLOps lifecycle.

HOBBIES AND INTERESTS

Music

I enjoy listening to music of all kinds. I believe it is the most beautiful form of art and that it fosters creativity, active listening, and concentration.

Reading

I like reading; it helps me relax and has allowed me to develop critical thinking skills and broaden my vocabulary.

Videogames

I am passionate about the world of video games, both from a technical and recreational perspective. Playing video games has helped me refine my teamwork and problem-solving skills.

Adventures

I enjoy travelling to discover new places and cultures. For me, one of the main goals in life is to see and experience as much of the world as possible, continuously learning from what I have never seen or lived before.
